MEMORANDUM FOR: The Director

SUBJECT : [] Paper

25X1

1. As you may recall, on 18 November I sent copies of the expurgated version of [] paper to Danny Graham, Lew Allen, Sam Wilson, John Hicks and Hank Knoche. My intent was to convene an informal meeting of these gentlemen after my return from Europe to discuss where we should go from here.

2. On Monday, 25 November, Danny told me over the telephone that he had received the [] piece and liked it, though he had a few minor changes to propose in the recommendations arena. I now have in hand a 26 November letter (copy attached) outlining these modest changes which are about as modest as those in [] similarly titled "proposal." I do not wish to seem excessively thin-skinned, but our former colleague's pitch here is part and parcel of what I am convinced is a larger effort to assume control over all U.S. Government intelligence activities with any "military" component, giving that adjective a very broad definition.

3. I still plan to convene the above-described session next week but before doing so will want to touch base informally with the recipients of this note on their reactions to Danny's line of argument.
